

- Angiography (*Continued*)
 pulmonary, 188, 205
 visceral, 394-395
- Angiomyolipomas, in tuberous sclerosis complex, 336
- Angioplasty, renal artery
 in atherosclerotic renal artery stenosis, 343
 for fibromuscular dysplasia, 170-171
- Angiotensin-converting enzyme (ACE), 642
 elevated levels of, in sarcoidosis, 229
- Angiotensin-converting enzyme (ACE) inhibitors
 in chronic kidney disease, 363-364
 contraindications to, 174t
 in coronary artery disease, 94
 for heart failure, 62
 for hypertension, 173t
 in renal artery stenosis, 341-342
 in myocardial infarction, 105, 108-109
 perioperative, with noncardiac surgery, 275-276
 for scleroderma renal crisis, 348
 side effects of, 174t
- Angiotensin I, 182, 644f
- Angiotensin II, 58, 182, 642, 644f
- Angiotensin-receptor blockers (ARBs), 62
 in chronic kidney disease, 363-364
 contraindications to, 174t
 in coronary artery disease, 94
 for hypertension, 173t
 for Raynaud's phenomenon, 791
 side effects of, 174t
- Angiotensinogen, 642, 644f
- Anhidrosis, 990
- Animal bites, 887
 treatment for, 889-890
- Animal exposure, febrile syndromes associated with, 838t, 841-842
- Anion gap
 in chronic kidney disease, 363
 metabolic acidosis and, 306, 308-310
- Anisocoria, 1002-1003, 1004f
- Ankle-brachial index, 53-54, 159, 159t
- Ankylosing spondylitis
 clinical features of, 777
 epidemiology of, 775
 inflammatory bowel disease with, 419
- Anomia, 976
- Anorchia, bilateral, 653
- Anosmia, in Kallmann's syndrome, 653
- Anosognosia, 978-979
- Antacids
 in critically ill patients, 412
 for gastroesophageal reflux disease, 397
 in peptic ulcer disease, 407
- Anterior cerebral artery (ACA), stroke associated with, 1035, 1038t
- Anterior horn cell disease, 1015
- Anterior uveitis, spondyloarthritis and, 776, 777f
- Anterograde amnesia, 984
- Anti-glomerular basement membrane antibody, glomerulonephritis and, 321, 322f
- Antiarrhythmic drugs
 for atrial fibrillation, 127-128, 128f
 characteristics of, 114t
 class I, 113
 class II, 113
 class III, 114-115
- Antiarrhythmic drugs (*Continued*)
 class IV, 113
 classification of, 112-113, 113t
 heart failure and, 64
 side effects of, 115t
- Antiarrhythmics Versus Implantable Defibrillators (AVID) trial, 131
- Antibiotic prophylaxis
 for infective endocarditis, 882
 long-term, neutropenic patients, 946
- Antibiotics, 214
 for acute bacterial otitis media, 871
 for acute bacterial sinusitis, 868
 for acute pancreatitis, 430
 in bone and joint infections, 907
 for central venous catheter-related bloodstream infections, 883
 hepatotoxicity of, 452-453
 for infective endocarditis, 881
 for peritonitis, 897-898
 for pneumonia, 875
- Antibodies, 826
 anti- β_2 -glycoprotein I, 568, 570-571
 antimicrosomal, 634
 platelet, 550
 structure of, 826, 827f
- Anticardiolipin antibodies, 568
 serologies for, 570-571
 thrombocytopenia with, 551
- Anticholinergic agents
 for benign prostatic hyperplasia, 722
 in chronic obstructive pulmonary disease, 213
 for irritable bowel syndrome, 374
- Anticoagulants
 endogenous, 539f, 540
 natural, inherited deficiency of, 566-567
- Anticoagulation. *see also* Heparin; Warfarin.
 in acute limb ischemia, 160-161
 in atrial fibrillation, 125-126, 1044
 during breast-feeding, 573
 in cancer patient, hospitalized, 618
 for deep vein thrombosis, 165
 in heparin-induced thrombocytopenia, 569
 for mitral stenosis, 81-82
 perioperative, 573
 during postpartum period, 573
 with prosthetic heart valves, in pregnancy, 157
 in pulmonary arterial hypertension, 164
 idiopathic, 241
 for pulmonary embolism, 167
 in renal vein thrombosis, 351
 for spinal cord injury, 1049
 in stroke patients, 1044
 for stroke prevention, secondary, 1044
 venous hemostasis and, 537f
 for venous thromboembolism, 571, 572t
- Anticodon, 3
- Anticonvulsants, for neuropathic pain, 1084t
- Anticyclic citrullinated peptide antibodies, in rheumatoid arthritis, 773
- Antidepressant medications
 for bipolar disorders, 986
 for depression, 987t
 for fibromyalgia syndrome, 812
- Antidiarrheal agents, in inflammatory bowel disease, 423
- Antidiuretic hormone (ADH), 287
 pituitary gland and, 624
- Antiemetic drugs, with cancer chemotherapy, 591
- Antiepileptic drugs, discontinuing of, 1063
- Antifungal prophylaxis, in neutropenic patients, 946
- Antigen-presenting cells, 284, 825, 827, 828f
 for T-lymphocytes, 517
- Antigens, short-chain peptide, 827
- Antiglomerular basement membrane syndrome, 233
- Antihypertensive agents, 173t
 for acute severe hypertension, 178, 179t
 contraindications and side effects of, 174t
 in hypertensive emergencies, 179t
 lifetime protection from, 179
- Antimalarial chemoprophylaxis, 953
- Antimicrobial regimen, empirical, in septic patients, 851, 851t
- Antimicrobial stewardship, importance of, 916
- Antimicrobial therapy
 for diarrhea, 901t, 903-904
 for meningitis, 858-859, 859t
 in neutropenia patients, 945-946
- Antimicrosomal antibodies, 634
- Antimyeloma therapy, for amyloidosis, 323-324
- Antineutrophil cytoplasmic antibodies (ANCA), 794-795
 associated vasculitides with, 793
 diffuse alveolar hemorrhage and, 233
 in pulmonary vasculitides, 233
 in ulcerative colitis, 420
 vasculitides and, 320-321, 321t
- Antinuclear antibodies (ANAs)
 low specificity of, 768
 in systemic lupus erythematosus, 782
- Antiphospholipid antibodies (APAs), in systemic lupus erythematosus, 781
- Antiphospholipid antibody syndrome (APS), 350, 568
 diagnosis of, 568
 pregnancy and, 572-573
 thrombocytopenia in, 551
 thrombosis in, 568
- Antiplatelet therapy, 565, 565t. *see also* Aspirin; Clopidogrel.
 in acute coronary syndrome, 101
 in coronary artery disease, 94
 in myocardial infarction, 108
 platelet dysfunction caused by, 554t
 for stroke prevention, 1041
- Antipsychotic medications, 988
 for bipolar disorders, 986
- Antisense strand, 3
- Antithrombin (AT), 540
 deficiency of, 566, 566t
 functional, 570-571
- Antithymocyte globulin (ATG), for aplastic anemia, 483
- Antithyroid drugs, 636
 α_1 -Antitrypsin deficiency, 455
 in emphysema, 209
- Anton syndrome, 1006
- Anxiety, 987-988, 987t
 in older adults, 1108-1109
 palliative care and, 1120
