

- Anxiety (*Continued*)  
 somatic symptoms of, 988t  
 in women, 711
- Anxiety-hyperventilation syndrome, respiratory alkalosis and, 312
- Aorta  
 intramural hematoma of, 162  
 rupture of, 146  
 Takayasu's arteritis of, 163
- Aortic aneurysm, 161, 161f, 161t
- Aortic coarctation, 70-71  
 hypertension secondary to, 170t
- Aortic dissection, 161-162, 162f, 344-345  
 acute pain of, 24  
 in pregnancy, 158  
 of Marfan syndrome patient, 157
- Aortic regurgitation, 76t, 77-80, 78t  
 carotid pulse associated with, 29-30  
 clinical presentation of, 78  
 definition of, 77  
 diagnosis of, 79  
 murmur of, 24  
 pathology of, 77-78  
 prognosis of, 80  
 tetralogy of Fallot and, 74  
 treatment for, 80  
 ventricular septal defects and, 69
- Aortic root enlargement, in Marfan syndrome,  $\beta$ -blockade and, 161
- Aortic stenosis, 76-77, 76t, 77f, 78t-79t  
 carotid pulse associated with, 29-30  
 murmurs in, 33-34  
 noncardiac surgery in patient with, 157  
 in older adults, 1107t  
 pregnancy in patient with, 157  
 valvular heart disease and, 278
- Aortic ulcers, penetrating, 162, 162f
- Aortic valve  
 anatomy of, 16  
 fibroelastoma of, 145  
 opening of, 19f
- Aortic valve replacement (AVR), for stenosis, 77
- Aortitis  
 in giant cell arteritis, 797  
 spondyloarthritis and, 776
- Apatite-associated arthropathy, 803
- Aphasia, 976-978  
 types of, 978t  
 in writing, 976, 978f
- Aphthous ulcers, 870
- Aplastic anemia, 482-483  
 acute viral hepatitis and, 451  
 clinical presentation of, 483  
 definition and epidemiology of, 482  
 diagnosis and differential diagnosis of, 483  
 pathology of, 482-483, 482t, 483.e1f  
 treatment and prognosis of, 483
- Aplastic bone disease, 755
- Aplastic crisis, in sickle cell disease, 512
- Apnea, 972  
 definition of, 245
- Apnea-hypopnea index (AHI), 972
- Apneustic breathing, 246
- Apolipoprotein B100, 689  
 familial defective, 695
- Apolipoprotein C-II, 689  
 deficiency in, 696
- Apolipoprotein H, 350
- Apoptosis, 478-479  
 chemotherapy-induced, 588  
 resistance to, in tumor cells, 576
- Appendicitis, 891-894, 892f-893f
- Apraxia, 978-979, 978f
- Arcanobacterium haemolyticum*, skin and soft tissue infection from, 886
- Arcuate arteries, 341
- Argatroban, in heparin-induced thrombocytopenia, 569
- Argyll-Robertson pupils, 1003
- Aristolochic acid, 331, 367
- Aristolochic acid nephropathy, 331
- Aromatase inhibitors, for breast cancer, 588
- Arrhythmias  
 after myocardial infarction, 106-107  
 associated with fibromas, 145  
 cardiac, 110-135  
 bradycardia, 116-120  
 cardioversion and defibrillation for, 115  
 classification of, 111  
 electrophysiology in, 110-111, 110f  
 management of, 111-116  
 mechanisms of, 111  
 syncope, 129  
 tachycardias, 120-129  
 ventricular, and sudden cardiac death, 129-133, 130f  
 noncardiac surgery in patient with, 156, 278  
 palpitations associated with, 25  
 in sarcoidosis, 229  
 in systemic sclerosis, 788t  
 from trauma, 146
- Arrhythmogenic right ventricular cardiomyopathy (ARVC), 132, 144
- Arsenic trioxide, for APL, 499
- Artemisinin, 953
- Arterial embolism, acute limb ischemia in, 160-161
- Arterial hypertension, 167-172  
 in African Americans, with kidney disease, 169  
 initial evaluation for, 168-170  
 risk stratification in, 169  
 secondary causes of hypertension and, 169-170, 170t  
 staging in, 168, 168t  
 peripheral arterial disease with, 159  
 stroke risk in, 168, 168f
- Arterial pressures, in normal cardiac cycle, 19-20
- Arterial pulse, 27-30, 29f
- Arterial switch procedure, for transposition of great arteries, 74
- Arterial thrombosis  
 in essential thrombocytopenia, 568-569  
 lower limb ischemia caused by, 160-161  
 risk for, 564, 566t
- Arteriography. *see also* Angiography.  
 pulmonary, in pulmonary thromboembolism, 243  
 renal, in chronic kidney disease, 297  
 for renal artery stenosis, 343
- Arteriovenous fistula (AVF), 163  
 hemodialysis and, 368
- Arteriovenous graft (AVG), hemodialysis and, 368
- Arteriovenous malformation, 163
- Arteritis  
 giant-cell. *see* Giant cell arteritis (GCA)  
 Takayasu's, 163  
 temporal, 163
- Arthralgias, in systemic lupus erythematosus, 780
- Arthritis. *see also* Osteoarthritis; Psoriatic arthritis;  
 Reactive arthritis; Rheumatoid arthritis;  
 Septic arthritis; Spondyloarthritis.  
 crystal-induced, 766  
 differentiating features of, 767t  
 evaluation of, 766-769  
 biopsy in, 769  
 laboratory testing for, 768-769, 768t  
 musculoskeletal history and examination of, 766-768, 766t-767t, 767f  
 radiographic studies in, 769  
 summary of, 769  
 in sarcoidosis, 816-817  
 in sickle cell disease, 815  
 viral, 772
- Arthritis mutilans, 778
- Articular disease, differentiating nonarticular soft tissue disorders from, 810t
- Asbestos, 235  
 exposure to, lung cancer and, 266  
 lung cancer and, 592  
 mesothelioma and, 250
- Ascaris lumbricoides*, 474, 955, 955.e2f
- Ascites, cirrhotic, 461-462, 461t, 462f
- Aseptic meningitis syndrome, 854
- Aspartate aminotransferase (AST), 440, 441t.  
*see also* Aminotransferase.  
 damaged hepatocytes and, 450
- Aspergillosis  
 allergic bronchopulmonary, 186, 217  
 in asthma, 220  
 invasive pulmonary, 949f
- Aspergillus*  
 infection with, pneumonia in, 873  
 pulmonary infiltrates caused by, 943-944
- Aspirin  
 in acute coronary syndrome, 101  
 in acute STEMI, 105  
 in antiphospholipid antibody syndrome, 350  
 in antiplatelet therapy, 565  
 clopidogrel with, 565  
 in coronary artery disease, 94  
 for diabetic patients, 667-668  
 for Kawasaki disease, 797  
 in myocardial infarction, 108  
 peptic ulcer disease and, 406  
 perioperative, with noncardiac surgery, 276  
 in peripheral arterial disease, 160  
 platelet dysfunction caused by, 554-555, 554t, 555f, 556t  
 poisoning from, 309-310  
 prophylactic doses of UFH or LMWH with, 572-573  
 for reduction of atrial fibrillation-related stroke, 126  
 for stroke prevention  
 primary, 1041  
 secondary, 1044  
 for Sturge-Weber syndrome, 1031
