

- Congenital heart disease (*Continued*)
 noncardiac surgery in patient with, 279
 patent ductus arteriosus, 68f, 71-72
 pregnancy in patient with, 157
 pulmonary valve stenosis, 72
 surviving to adulthood, 67t
 tetralogy of Fallot, 73-74, 74f
 pregnancy in patient with, 157
 transposition of great arteries, 74-75
 ventricular septal defects, 68-69, 68f
- Congenital long QT syndrome, 133
- Congenital malformations, 1024-1027, 1024t
 brain, 1024-1026
 spinal cord, 1026-1027
- Congenital muscular dystrophies, 1091t
- Congenital thrombocytopenia syndromes, 549
- Congestive heart failure, 22. *see also* Heart failure.
 angina pectoris and, 94
 in HIV-infected patient, 938
 noncardiac surgery in patient with, 278
- Conjunctivitis, in spondyloarthritis, 777
- Connective tissue diseases. *see also* Rheumatic disease.
 fever of unknown origin and, 840
 pulmonary involvement in, 230t
- Connective tissue screen, 766
- Consciousness
 anatomic substrate of, 965
 diagnostic approach of, 966-968
 disorders of, 965-970. *see also* Coma seizures and, 1053
- Constipation, in irritable bowel syndrome, 374
- Constitutively expressed genes, 5
- Constrictive pericarditis, 138-139, 139f
 anasarca with ascites in, 26
 jugular venous pulsations in, 27
vs. restrictive cardiomyopathy, 143t
- Continuous positive airway pressure (CPAP)
 for sleep disordered breathing, 245
 in weaning from mechanical ventilation, 261
- Continuous renal replacement therapies (CRRTs),
 in acute kidney injury, 361
- Continuous subcutaneous insulin infusion (CSII),
 661-662
- Contraception, 701-703, 704t
- Contraceptive patch, 701
- Contractility, cardiac, 20, 20t
 myocardial oxygen consumption and, 20
- Contrast agents, gadolinium-based, 297
- Contrast-enhanced computed tomography (CECT), in pancreatitis, acute, 428, 429f
- Contrast studies, 392-393
- Convulsions, 1053-1054
 in alcohol withdrawal, 1128
- Coombs tests, 508
- COPD. *see* Chronic obstructive pulmonary disease (COPD).
- Cop pulmonale, 242
 in chronic obstructive pulmonary disease, 211
- Corneal reflection test, 1004
- Coronary angiography
 in acute coronary syndrome, 101
 in angina pectoris, 93
 indications for, 94t
 before noncardiac surgery, 274
- Coronary artery, aneurysms of, in Kawasaki disease, 796
- Coronary artery bypass grafting (CABG), 147-148
 in angina pectoris, 96
 minimally invasive, 148
 noncardiac surgery and, 274
 off-pump, 148
- Coronary artery disease (CAD), 22. *see also* Acute coronary syndromes; Angina pectoris; Atherosclerosis; Cardiovascular disease; Myocardial ischemia.
 clinical presentations of, 89-108
 hypertension and, 168f, 176
 postoperative, 155
 risk factors for, 87t
 stress testing for, 42-44
 in women, 711-712
- Coronary atherosclerosis, CT scans for, 52, 53f
- Coronary blood flow, 89-90
- Coronary calcification, in coronary artery disease, 88, 93
- Coronary circulation, physiology of, 20-21
- Coronary heart disease (CHD), 87-109. *see also* Coronary artery disease; Myocardial infarction.
 definition of, 87
 epidemiology of, 87
 pathology of, 88-89, 89f
 prognosis of, 108-109
 risk factors for, 87-88, 87t
- Coronary revascularization, 273-275
- Coronary sinus, unroofed, 67
- Coronary vasculopathy, in transplanted heart, 153
- Coronary vasospasm, 97
 myocardial ischemia and, 90
- Corpus callosum, 976
 agenesis of, 1024
- Corrigan pulse, 29-30
- Cortical blindness, 1006
- Cortical dementia, 980t
- Cortical ribboning, 866
- Cortical spreading depression, 995
- Cortical syndromes, 976-979
 anatomy in, 976, 976f-977f
 clinical assessment of, 976
 prospectus for future, 979
 regional, 976-979
 symptoms and signs of, 977t
- Cortical venous thrombosis, subdural empyema
 leading to, 863
- Corticobasal degeneration, 1018
- Corticosteroids
 for autoimmune hepatitis, 454
 bone health and, 785
 for bursitis, 811
 for drug-induced liver injury, 453
 fluorinated, 784
 for focal segmental glomerulosclerosis, 316
 for giant-cell arteritis, 163
 for gout, 802
 immunosuppression and, for systemic sclerosis and, 792
 for inflammatory bowel disease, 422-423
 with calcium and vitamin D, 424
 for interstitial lung disease, idiopathic pulmonary fibrosis, 230
- Corticosteroids (*Continued*)
 intra-articular
 for gout, 802
 for osteoarthritis, 807
 for meningitis, tuberculous, 859
 for minimal change disease, 315-316
 for *Pneumocystis pneumonia*, 257-258
 for Takayasu's arteritis, 163
 for tendinitis, 811
- Corticotropin-releasing hormone (CRH), 625t, 629, 642, 644f
 inferior petrosal sinus sampling and, 649
 ovine CRH test and, 649
- Cortisol, 642, 644f
 in adrenal insufficiency
 diurnal manner, 647-649
 plasma level of, 644
 replacement of, 644
 adrenocorticotropic hormone and, 629, 642, 644, 644f
 hypersecretion of. *see* Cushing's syndrome
 plasma level of
 in adrenal insufficiency, 644
 in Cushing's syndrome, 647-649
 salivary late-night, 647-649
 urinary free, 647
- Cosyntropin-stimulation test, 626t
- Cotransporters, 284
- Cough, 26, 186
- Cough-variant asthma, 186
- Coumadin, for stroke prevention, 126
- Countertransporters, 284
- Courvoisier's sign, 436
- COX-1. *see* Cyclo-oxygenase-1 (COX-1).
- COX-2. *see* Cyclo-oxygenase-2 (COX-2).
- Coxiella burnetii* infection, 838t, 841
- CpG dinucleotide, methylation of, 6
- Crack cocaine, 1134
- "Crack lung", 231
- Crackles, 59, 188
 lung cancer and, 267, 267.e1f
- Cranial neuralgias, 994t, 1000
- Creatine kinase muscle band (CK-MB), 100
 cardiac contusion and, 146
 in myocardial infarction, 104
- Creatinine, serum
 in chronic kidney disease, 363
 in kidney function, 290
- Crescentic glomerulonephritis, 320, 321f
- Cretinism, 638
- Creutzfeldt-Jakob disease (CJD)
 dementia in, 983
 sporadic, 866
- CRH. *see* Corticotropin-releasing hormone (CRH).
- Crigler-Najjar syndrome, 446
- Critical care medicine, essentials in, 259-265
 acute lung injury in, 262-263
 acute respiratory failure, 259
 drug overdoses in, 264, 264t
 introduction to, 259
 mechanical ventilation in. *see* Mechanical ventilation
 noxious gases, fumes, and smoke inhalation in, 263-264, 263t
 settings in, 260-261
