

- Diuretics (*Continued*)  
for heart failure, 61-62  
for hypercalciuria, 339  
in hyperkalemia, 306  
for hypertension, 172, 173t, 177  
hyponatremia and, 301  
in metabolic alkalosis, 311  
in nephrotic syndrome, 314  
in pulmonary arterial hypertension, 164  
side effects of, 174t  
in tricuspid valve disease, 84-85
- Diverticulitis, 894, 895f
- Dix-Hallpike test, 1011, 1012f
- Dizziness, 1010-1012  
clinical presentation of, 1011  
definition, 1010  
differential diagnosis for, 1011-1012, 1011t  
epidemiology, 1010  
pathology of, 1010  
prognosis for, 1012  
treatment for, 1012
- DLCO. *see* Diffusion capacity for carbon monoxide (DLCO).
- DNA (deoxyribonucleic acid), 2  
antisense strand of, 3  
condensation of, 5  
methylation, 6  
specificity of, 2
- DNA methyltransferase inhibitor therapy, for myelodysplastic syndrome, 487
- DNA microarrays, 8-9
- DNA mismatch repair pathway, in colon cancers, 601
- DNA polymerase, tandem repeats and, 9
- DNA repair genes, 577
- Dobutamine, in pharmacologic stress testing, 93
- Dobutamine echocardiography, before noncardiac surgery, 274
- Dobutamine-stress echocardiography, 45
- Dofetilide, 115, 115t
- Doll's eyes maneuver, 967, 1004
- Domperidone, for gastroparesis, 415
- Donovanosis. *see* Granuloma inguinale.
- Dopamine  
for heart failure, 65, 66t  
prolactin and, 625t
- Dopamine agonist  
for acromegaly, 628  
for prolactinoma, 626
- Doppler echocardiography, 46, 46f
- Doppler ultrasonography, 54  
duplex  
of aortic and iliac aneurysm, 161  
in deep vein thrombosis, 165  
in peripheral arterial disease, 159-160
- Double tetracycline labeling techniques, 754-755
- Double vision, 1004
- Dowager's hump, 758
- Down syndrome, atrioventricular septal defects and, 69
- Doxorubicin, 587t
- Doxycycline  
for chlamydia, 919  
for granuloma inguinale, 925
- Dravet syndrome, 1052
- Dronedrone, 115, 115t, 127
- Drop seizures, 1056
- Drosha, 5
- Drug abuse  
illicit drugs in, 1134-1137  
prescription drugs in, 1132-1134, 1132f
- Drug-eluting stents, in angina pectoris, 96
- Drug-induced liver injury, 452-453
- Drug-induced lung disorders, 231-232, 232t, 231.e1f
- Drug resistance, baseline resistance testing and, 934
- Drugs  
acute interstitial nephritis caused by, 329, 329t  
affecting platelet function, 555, 556t  
cholestasis caused by, 447  
in chronic kidney disease, 367, 367t  
erectile dysfunction induced by, 718, 718t  
fever induced by, 836  
hearing loss caused by, 1007  
hemolytic anemia, 508-509  
immune thrombocytopenia caused by, 551, 552t  
with heparin, 569  
metabolism and excretion of, in acute kidney injury, 361.e1t  
neutropenia induced by, 518-519  
overdoses of, 264, 264t  
Parkinsonism induced by, 1018-1019  
thrombocytopenia associated with, 548-549
- Dual-energy x-ray absorptiometry (DEXA), 677, 758, 760f
- Ductal carcinoma in situ (DCIS), 611
- Duke criteria, modified, for infective endocarditis  
diagnosis, 879t
- Dumping syndrome, 415, 672
- Duodenoscopy, 391
- Duodenum  
anatomy of, 402-403, 402f  
diseases of, 402-416  
gastrinoma in, 413-414  
motor physiology of, 404  
ulcers of. *see* Peptic ulcer disease
- Dutasteride, for benign prostatic hyperplasia, 722
- Dying process, 1122
- Dysarthria, 978
- Dysautonomias  
benign, 990  
in traumatic spinal cord injury, 1048-1049
- Dysbetalipoproteinemia, familial, 695
- Dysfibrinogenemias  
arterial disease and, 571  
congenital, 559  
venous thromboembolism and, 566t
- Dyskeratosis congenita, 482
- Dyslipidemia, 689, 691  
recommendations for screening for, 692t
- Dyspepsia, 373-374  
evaluation of, 408f  
nonulcer, 413
- Dysphagia, 396-399  
differential diagnosis of, 399f  
esophageal, 399  
in esophageal cancer, 598  
oropharyngeal, 398-399
- Dysphasia. *see* Aphasia.
- Dyspnea  
in cardiac disease, 24-25  
causes of, 185t  
in heart failure, 59  
paroxysmal nocturnal, 24-25, 186  
in respiratory disorder, 185, 185t
- Dysprosody, 978
- Dysproteinemias, 358
- Dystonia, 1021
- Dystrophin-glycoprotein complex, 1088f
- Dystrophinopathies, 1090-1092
- E**
- Ear infections, subdural empyema and, 863
- Early afterdepolarizations (EADs), 111
- Early repolarization, 41
- Eating disorders, in women's health issues, for adolescents, 700
- Echinococcus, 957
- Echocardiography, 45-46, 45f  
in aortic stenosis, 76-77  
enhanced with intravenous ultrasound contrast agent, 47f  
for infective endocarditis, 880  
in mitral stenosis, 81, 82f  
in pulmonary arterial hypertension, 164  
idiopathic, 240-241  
in pulmonary embolism, 166
- Eclampsia, 177
- ECMO. *see* Extracorporeal membrane oxygenation (ECMO).
- Ecstasy, 1137
- Ecthyma, 885
- Ecthyma gangrenosum, 849
- Ectopic atrial tachycardia, 124
- Ectopy, ventricular, 129
- Eculizumab  
in hemolytic uremic syndrome, 325-326  
for paroxysmal nocturnal hemoglobinuria, 484, 510, 568
- Edema, 25-26  
bowel, tricuspid valve disease and, 84  
cerebral. *see* Cerebral edema  
in hypothyroidism, 638
- Edrophonium chloride (Tensilon), for myasthenia gravis, 1098
- Education, in gout, 802
- Edwardsiella tarda, skin and soft tissue infection from, 886
- Effective arterial blood volume (EABV), 300  
hypokalemia and, 303, 303f  
and saline-responsive/resistant metabolic acidosis, 310-311, 311t
- Effusive constrictive pericarditis, 139
- Eggshell calcifications, with silicosis, 234.e1f
- Egophony, 188
- Ehlers-Danlos syndrome, 547
- Ehrlichiosis, 843
- Eikenella corrodens, skin and soft tissue infection from, 886
- Eisenmenger's syndrome  
atrioventricular septal defects with, 70  
patent ductus arteriosus and, 72  
ventricular septal defects with, 69
- Ejection clicks, 32
- Ejection sounds, 32
