

- Factor V deficiency, 559
- Factor V Leiden mutation, 566
- Factor VIII
- acquired inhibitors of, 560
 - liver disease and, 560
 - virally inactivated concentrate, 561
- Factor X deficiency, 559
- Factor XI deficiency, 559
- Factor XIII deficiency, 561
- Fall prevention measures, 761
- Familial adenomatous polyposis (FAP), 601
- Familial Alzheimer's disease, 981t
- Familial amyloid neuropathies, 1086
- Familial combined hyperlipoproteinemia (FCHL), 695
- Familial defective apolipoprotein B100, 695
- Familial dysbetalipoproteinemia, 695
- Familial fatal insomnia, 865
- Familial hypercholesterolemia, 694-695
- Familial hypertriglyceridemia, 696
- Familial hypocalciuric hypercalcemia, 743
- Familial prion disease, 1020
- Famotidine, for peptic ulcer disease, 407
- Fanconi syndrome, in interstitial nephritis, 331
- Fanconi's anemia, 482, 549
- diagnosis of, 483, 483.e1f
- Fascicular block, 40
- electrocardiographic manifestations of, 41t
- Fasciola hepatica*, 474
- Fasting plasma glucose, 657, 658t
- Fat, digestion and absorption of, 378
- Fatigue
- in cardiac disease, 26
 - in heart failure, 59
 - in systemic lupus erythematosus, 780
- Fatty acids, metabolic disorders of, 1094
- Febrile neutropenia, 620, 841
- Febrile seizures, 1057
- Febrile syndromes, 835-845
- Febuxostat, for gout, 802
- Fecal fat test, 433
- Fecal impaction, in older adults, 1107t
- Felty's syndrome, 519, 772
- Fenoldopam, in hypertensive emergency, 178, 179t
- Fentanyl, 1119t
- abuse of, 1129t-1130t
- Fetal alcohol spectrum disorders (FASDs), 1131-1132
- Fetal loss, maternal thrombophilia and, 567
- α -fetoprotein
- in hepatocellular carcinoma, 585
 - in testicular cancer, 585
- FEV₁. *see* Forced expiratory volume in 1 second (FEV₁).
- Fever, 835-845
- acutely ill patient with, diagnostic approach to, 836-837, 836t
 - after animal exposures, 838t, 841-842
 - clinical findings and associated infections in, 840t
 - deleterious effects of, 835
 - factitious, self-induced illness and, 844-845
 - headache with, 998
 - infective endocarditis and, 878
 - during inflammation and infection, 825
 - with localized symptoms and signs, 837
- Fever (*Continued*)
- with lymphadenopathy, 843-844
 - pathogenesis of, 835-836
 - patterns of, 836
 - rash and, 837, 838t-839t, 842-843
 - in returning traveler, 953
 - syndromes and diseases associated with, 839t
 - in sepsis, 849
 - in traumatic brain injury, 1047
 - of unknown origin, 837-841, 840t
 - vs. hyperthermia, 835
- FFA. *see* Free fatty acids (FFA).

- classification of, 343t, 344f
- Fibromyalgia syndrome, 809, 811-812, 812t
- Fick oxygen method, 49
- Field cancerization, 614
- Figure-4 sign, 1053-1054
- Filariasis, lymphatic, 956
- Filgrastim, 591
- Filling pressures
- atrial, 19
 - left, 19, 19f, 20t
 - right, 19f, 20t, 21
 - documentation of, 48-49, 49f
 - ventricular, 20
- Finances, in older adults, 1111
- Finasteride, for benign prostatic hyperplasia, 722
- Fine-needle aspiration (FNA), with endoscopic ultrasound guidance, 392
- Fingolimod, for multiple sclerosis, 1073
- First-degree atrioventricular block, 118, 119f
- FISH. *see* Fluorescence in situ hybridization (FISH).
- Flecainide, 113, 115t
- Fleischer Society, 268
- Fleischner's sign, 242
- Flow-dependent vasodilation, 21
- Flow-volume loops, 201, 202f
- Fludrocortisone, for mineralocorticoid deficiency, 645
- Fluid disorders, 299-313
- Fluid management
- for acute pancreatitis, 430
 - in traumatic brain injury, 1047
- Fluid resuscitation
- in hypercalcemia, 620
 - in sepsis, 851
- Fluid therapy, oral, for diarrhea, 903
- Fluids, palliative care and, 1122
- Flumazenil (Romazicon), for benzodiazepine overdose, 1132-1133
- Flunitrazepam, 1129t-1130t, 1132
- Fluorescence in situ hybridization (FISH), 10, 831, 832f
- Fluorescent treponemal antibody absorption (FTA-ABS) test, for syphilis, 923
- 18-Fluorodeoxyglucose (FDG), in lung cancer, 595-596
- Fluoroquinolone, for community-acquired pneumonia, 255
- Fluoroscopy, of diaphragm paralysis, 203, 253
- 5-Fluorouracil, 587t
- Fluticasone, in chronic obstructive pulmonary disease, 213
- Foam cells, 88
- Focal atrial tachycardia, 120, 123f, 124
- Focal epilepsy, 1054-1057, 1059
- Focal segmental glomerulosclerosis, 316-317, 316f
- causes of, 316t
- Folic acid (folate)
- deficiency of, 506
 - causes of, 506t
 - metabolic pathways of, 506f
- Follicle-stimulating hormone (FSH), 624, 625t-626t, 631
- in male, 652, 652f
- Follicular lymphomas, 524
- Follicular phase, of menstrual cycle, 698-699, 699f
- Folliculitis, 884
- Fondaparinux
- for deep vein thrombosis, 165
 - in NSTEMI, 102
 - for prophylaxis of venous thromboembolism, 167
 - for pulmonary embolism, 166-167
- Food poisoning, bacterial, 900
- Foot ulcers, diabetic neuropathy and, 670-671
- Foramen ovale, patent, paradoxical embolism and, 1036
- Forced expiratory volume in 1 second (FEV₁), 200, 201f
- bronchiolar disorders, 215-216
 - in bronchoprovocation testing, 201-202, 202f
 - in chronic pulmonary disease, 208
 - pattern of decline in, 209f
