

FIG. 327-3B Cardiac arrest management: bradyarrhythmia/
asystole 1769

ENDOCRINOLOGY AND METABOLISM

FIG. 68-2 The evaluation and differential diagnosis
of hirsutism 334

FIG. 402-1 Management of adult growth hormone (GH)
deficiency 2260

FIG. 403-3 Management of prolactinoma 2268

FIG. 403-5 Management of acromegaly 2270

FIG. 403-6 Management of Cushing's syndrome 2273

FIG. 403-7 Management of a nonfunctioning
pituitary mass 2274

FIG. 405-13 Approach to the patient with a thyroid
nodule 2308

FIG. 406-10 Management of the patient with suspected
Cushing's syndrome 2316

FIG. 406-12 Diagnostic flowchart for evaluating patients
with possible mineralocorticoid excess 2320

FIG. 406-13 Management of the patient with an incidentally
discovered adrenal mass 2322

FIG. 406-16 Diagnostic flowchart for evaluating patients
with suspected adrenal insufficiency 2327

FIG. 411-5 Evaluation of gynecomastia 2367

FIG. 411-6 Evaluation of hypogonadism 2367

FIG. 416-1 Algorithm for the treatment of obesity 2395

FIG. 418-2 Essential elements in comprehensive
care of type 2 diabetes 2413

FIG. 418-3 Glycemic management of type 2 diabetes 2416

FIG. 419-4 Screening for microalbuminuria 2425

FIG. 420-2 Hypoglycemia-associated autonomic failure
in insulin-deficient diabetes 2432

FIG. 424-6 The evaluation of patients with hypercalcemia 2479

FIG. 428-3 Algorithm for screening for *HFE*-associated
hemochromatosis 2518

GASTROENTEROLOGY AND HEPATOLOGY

FIG. 53-2 Approach to the patient with dysphagia 257

FIG. 55-2 Management of acute diarrhea 267

FIG. 55-3 Management of chronic diarrhea 271

FIG. 55-4 Management of constipation 273

FIG. 57-1 Management of acute upper gastrointestinal
bleeding 278

FIG. 57-2 Algorithm for patients with acute lower
gastrointestinal bleeding 279

FIG. 58-1 Evaluation of the patient with jaundice 281

FIG. 348-12 Overview of new-onset dyspepsia 1924

FIG. 357-1 Algorithm for evaluation of abnormal
liver tests 1994

FIG. 358-1 Algorithm for the evaluation of chronically
abnormal liver tests 1996

FIG. 363-2 Treatment algorithm for alcoholic hepatitis 2054

FIG. 365-3 Management of recurrent variceal hemorrhage 2064

FIG. 365-5 Treatment of refractory ascites 2065

FIG. 370-1 A stepwise diagnostic approach to the patient
with suspected chronic pancreatitis 2088

HEMATOLOGY AND ONCOLOGY

FIG. 77-17 The physiologic classification of anemia 398

FIG. 77-18 An approach to diagnosing patients with
polycythemia 400

FIG. 104-2 Diagnosis and treatment of fever
and neutropenia 490

FIG. 106-1 Evaluation of a patient with cervical
adenopathy 503

FIG. 107-3 Algorithm for management of non-small-cell
lung cancer 512

FIG. 107-5 Algorithm for management of small-cell lung
cancer 515

FIG. 107-6 Approach to a solitary pulmonary nodule 517

FIG. 107-7 Management of recurrent small-cell lung
cancer 522

FIG. 107-8 Approach to first-line therapy in a patient
with stage IV non-small-cell lung cancer 523

FIG. 108-1 Approach to a palpable breast mass 525

FIG. 108-2 The "triple diagnosis" technique in suspected
breast cancer 525

FIG. 108-3 Management of a breast cyst 525

FIG. 108-4 Approaches to abnormalities detected by
mammogram 526

FIG. 111-2 Treatment approach to patients with
hepatocellular carcinoma 548

FIG. 120e-2 Treatment algorithm for adenocarcinoma and
poorly differentiated adenocarcinoma of
unknown primary 120e-3

FIG. 120e-3 Treatment algorithm for squamous cell
carcinoma of unknown primary 120e-4

FIG. 127-3 Pathophysiology of sickle cell crisis 634

FIG. 132-2 The therapy of newly diagnosed acute
myeloid leukemia 684

FIG. 137-1 Algorithm for the diagnosis of amyloidosis
and determination of type 720

FIG. 140-2 Evaluating the thrombocytopenic patient 726

FIG. 143-1 Classification of antithrombotic drugs 745

FIG. 331-2 Management of cancer patients with back pain 1791

FIG. 331-4 Management of patients at high risk for the
tumor lysis syndrome 1796

INFECTIOUS DISEASES

FIG. 44-2 Diagnosis and treatment of acute pharyngitis 232

FIG. 152e-1 Syndromic approach to differential diagnosis
of suspected infection in a veteran who has
returned from a foreign war 152e-7

FIG. 155-4 Diagnostic use of transesophageal and transtracheal
echocardiography in infective endocarditis 821
