

<b>FIG. 159-3</b>	Management of patients with intraabdominal abscesses using percutaneous drainage . . . . .	850
<b>FIG. 160-1</b>	Approach to patients with community-acquired infectious diarrhea or bacterial food poisoning . . . . .	854
<b>FIG. 162-4</b>	Diagnostic approach to urinary tract infection . . . . .	865
<b>FIG. 177-1</b>	Clinical and pathologic progression of tetanus . . . . .	985
<b>FIG. 188-1</b>	Schematic of the relationships between colonization with <i>Helicobacter pylori</i> and diseases of the upper gastrointestinal tract among persons in developed countries . . . . .	1039
<b>FIG. 188-2</b>	Management of <i>Helicobacter pylori</i> infection . . . . .	1041
<b>FIG. 206-4</b>	Interpretation of results from syphilis enzyme immunoassays used for screening . . . . .	1137
<b>FIG. 209-3</b>	Treatment of relapsing fever . . . . .	1148
<b>FIG. 210-2</b>	Treatment of the various early or late manifestations of Lyme borreliosis . . . . .	1153
<b>FIG. 226-32</b>	Acute HIV infection . . . . .	1249
<b>FIG. 226-36</b>	Evaluation of diarrhea in patients with HIV infection . . . . .	1257
<b>FIG. 232-5</b>	Rabies postexposure prophylaxis . . . . .	1303

## NEPHROLOGY

<b>FIG. 61-1</b>	Approach to the patient with azotemia . . . . .	290
<b>FIG. 61-2</b>	Approach to the patient with hematuria . . . . .	292
<b>FIG. 61-3</b>	Approach to the patient with proteinuria . . . . .	293
<b>FIG. 61-4</b>	Approach to the patient with polyuria . . . . .	294
<b>FIG. 63-5</b>	The diagnostic approach to hyponatremia . . . . .	299
<b>FIG. 63-6</b>	The diagnostic approach to hypernatremia . . . . .	303
<b>FIG. 63-7</b>	The diagnostic approach to hypokalemia . . . . .	308
<b>FIG. 63-8</b>	The diagnostic approach to hyperkalemia . . . . .	311
<b>FIG. 67-3</b>	The evaluation and management of patients with erectile dysfunction . . . . .	327
<b>FIG. 337-2</b>	A typical algorithm for early posttransplant care of the kidney recipient . . . . .	1830
<b>FIG. 340-1</b>	Algorithm for the treatment of allergic and other immune-mediated acute interstitial nephritis . . . . .	1857
<b>FIG. 343-1</b>	Diagnostic approach for urinary tract obstruction in unexplained renal failure . . . . .	1873

## NEUROLOGY AND PSYCHIATRY

<b>FIG. 164-1</b>	The management of patients with suspected central nervous system infection . . . . .	884
-------------------	--------------------------------------------------------------------------------------	-----

<b>FIG. 164-2</b>	The pathophysiology of the neurologic complications of bacterial meningitis . . . . .	886
<b>FIG. 445-2</b>	Evaluation of the adult patient with a seizure . . . . .	2549
<b>FIG. 445-3</b>	Pharmacologic treatment of generalized tonic-clonic status epilepticus in adults . . . . .	2558
<b>FIG. 446-1</b>	Medical management of stroke and transient ischemic attack . . . . .	2560
<b>FIG. 449-7</b>	Treatment algorithm for the management of Parkinson's disease . . . . .	2619
<b>FIG. 458-4</b>	Therapeutic decision-making for multiple sclerosis . . . . .	2671
<b>FIG. 459-1</b>	Approach to the evaluation of peripheral neuropathies . . . . .	2675
<b>FIG. 461-2</b>	The management of myasthenia gravis . . . . .	2704
<b>FIG. 462e-1</b>	Diagnostic evaluation of intermittent weakness . . . . .	462e-1
<b>FIG. 462e-2</b>	Diagnostic evaluation of persistent weakness . . . . .	462e-2
<b>FIG. 466-1</b>	Medical management of major depressive disorder . . . . .	2716

## PULMONOLOGY

<b>FIG. 47e-2</b>	The evaluation of the patient with dyspnea . . . . .	47e-3
<b>FIG. 48-2</b>	Algorithm for the evaluation of hemoptysis . . . . .	246
<b>FIG. 300-3</b>	How to decide whether diagnostic imaging is needed in suspected pulmonary thromboembolism and deep venous thrombosis . . . . .	1632
<b>FIG. 300-6</b>	Imaging tests to diagnose deep venous thrombosis and pulmonary embolism . . . . .	1634
<b>FIG. 300-7</b>	Acute management of pulmonary thromboembolism . . . . .	1634
<b>FIG. 316-1</b>	Approach to the diagnosis of pleural effusions . . . . .	1717

## SYSTEMIC CONDITIONS

<b>FIG. 10-2</b>	Common and uncommon clinical courses in the last days of terminally ill patients . . . . .	68
<b>FIG. 26-1</b>	Structured approach to patients with fever of unknown origin . . . . .	139
<b>FIG. 30-3</b>	The initial workup of a patient with weakness . . . . .	156
<b>FIG. 43-2</b>	An algorithm for the approach to hearing loss . . . . .	218
<b>FIG. 69-2</b>	Algorithm for evaluation of amenorrhea . . . . .	337
<b>FIG. 75-1</b>	An algorithm for the diagnosis of a patient with photosensitivity . . . . .	390
