

Bones, Joints, and Soft Tissue Tumors

Andrew Horvai

CHAPTER CONTENTS

BONE 1180

Basic Structure and Function of Bone 1180

Matrix 1180

Cells 1180

Development 1181

Homeostasis and Remodeling 1182

Developmental Disorders of Bone and Cartilage 1183

Defects in Nuclear Proteins and Transcription Factors 1184

Defects in Hormones and Signal Transduction Proteins 1184

Defects in Extracellular Structural Proteins 1185

Type I Collagen Diseases (Osteogenesis Imperfecta) 1185

Diseases Associated with Mutations of Types II, IX, X, and XI Collagen 1185

Defects in Metabolic Pathways (Enzymes, Ion Channels, and Transporters) 1186

Osteopetrosis 1186

Diseases Associated with Defects in Degradation of Macromolecules 1187

Mucopolysaccharidoses 1187

Acquired Disorders of Bone and Cartilage 1187

Osteopenia and Osteoporosis 1187

Paget Disease (Osteitis Deformans) 1189

Osteomalacia and Rickets 1191

Hyperparathyroidism 1191

Renal Osteodystrophy 1192

Fractures 1193

Healing of Fractures 1193

Osteonecrosis (Avascular Necrosis) 1194

Osteomyelitis 1195

Pyogenic Osteomyelitis 1195

Mycobacterial Osteomyelitis 1196

Skeletal Syphilis 1196

Bone Tumors and Tumor-Like Lesions 1196

Bone-Forming Tumors 1197

Osteoid Osteoma and Osteoblastoma 1197

Osteosarcoma 1198

Cartilage-Forming Tumors 1200

Osteochondroma 1200

Tumors of Unknown Origin 1203

Ewing Sarcoma Family Tumors 1203

Giant Cell Tumor 1203

Aneurysmal Bone Cyst 1204

Lesions Simulating Primary Neoplasms 1204

Fibrous Cortical Defect and Nonossifying Fibroma 1204

Fibrous Dysplasia 1206

Metastatic Tumors 1207

Metastatic Tumors 1207

JOINTS 1207

Osteoarthritis 1208

Rheumatoid Arthritis 1209

Juvenile Idiopathic Arthritis 1212

Seronegative

Spondyloarthropathies 1212

Ankylosing Spondylitis 1213

Reactive Arthritis 1213

Enteritis Associated Arthritis 1213

Psoriatic Arthritis 1213

Infectious Arthritis 1213

Suppurative Arthritis 1213

Mycobacterial Arthritis 1214

Lyme Arthritis 1214

Viral Arthritis 1214

Crystal-Induced Arthritis 1214

Gout 1214

Calcium Pyrophosphate Crystal Deposition Disease (Pseudo-Gout) 1217

Joint Tumor and Tumor-Like Conditions 1218

Ganglion and Synovial Cysts 1218

Tenosynovial Giant Cell Tumor 1218

SOFT TISSUE 1219

Tumors of Adipose Tissue 1220

Lipoma 1220

Liposarcoma 1220

Fibrous Tumors 1221

Nodular Fasciitis 1221

Fibromatoses 1221

Superficial Fibromatosis 1221

Deep Fibromatosis (Desmoid Tumors) 1222

Skeletal Muscle Tumors 1222

Rhabdomyosarcoma 1222

Smooth Muscle Tumors 1223

Leiomyoma 1223

Leiomyosarcoma 1223

Tumors of Uncertain Origin 1223

Synovial Sarcoma 1223

Undifferentiated Pleomorphic Sarcoma 1224
