

- Insulin resistance, 1111-1112  
 in septic shock, 133  
 in type 2 diabetes mellitus, 1111
- Insulin-resistant diabetes, 206t
- Insulin signaling pathways, 1109
- Insulinoma. *See* Hyperinsulinism.
- Insulinitis, 1117b-1119b
- Integrins, 12, 24, 24f  
 in inflammation, 76, 76t
- Intercalated discs, in myocardium, 524
- Intercapillary glomerulosclerosis, 1117b-1119b
- Interdigitating dendritic cells, 191-192
- Interferons, type I, in systemic lupus erythematosus, 221
- Interferon regulatory factors (IRFs), 187
- Interleukins, in immune responses, 196
- Interleukin-1 (IL-1), in inflammation, 86-87
- Interleukin-6 (IL-6)  
 anemia of chronic disease due to, 652  
 in inflammation, 88
- Interleukin-8 (IL-8), 87
- Interleukin-17 (IL-17), in inflammation, 88
- Intermediate-density lipoprotein (IDL), cholesterol metabolism and transport, 147
- Intermediate filaments, 11
- Internal elastic lamina, of blood vessels, 484
- Internode, 1227-1228
- Interstitial cystitis, 962-963
- Interstitial edema, 1254
- Interstitial matrix, 21
- Intestinal obstruction, 777-778, 778f
- Intestinal volvulus, 778
- Intestinalization, due to vitamin B<sub>12</sub> deficiency, 648
- Intestine, 777-816, 795b-796b, 804b  
 acute appendicitis of, 816, 816b  
 anal canal tumors of, 815, 815f  
 angiodysplasia of, 780-781  
 appendix tumors of, 816  
 colitis of  
 diversion, 802, 803f  
 indeterminate, 800-801  
 microscopic, 802, 803f  
 colorectal cancer of  
 adenocarcinoma as, 810-815, 811f, 814f, 813b, 814t  
 hereditary non-polyposis, 810, 810t  
 graft-*versus*-host disease of, 802-803  
 hemorrhoids of, 815, 815b-816b  
 infectious enterocolitis of, 785-796, 786t  
*Campylobacter*, 786-787, 787b, 788f  
 due to cholera, 785-786, 787f  
 due to *Escherichia coli*, 790-791  
 due to salmonellosis, 788-789  
 due to shigellosis, 787-788, 788b  
 due to typhoid fever, 789, 789b  
 due to Whipple disease, 791-792, 792b, 792f  
 due to *Yersinia*, 789-790, 790b  
 parasitic, 794-796  
 pseudomembranous, 791, 791b, 791f  
 viral, 792-794, 793f  
 inflammatory bowel disease of, 796-802, 797f, 798f  
 colitis-associated neoplasia due to, 801-802, 802f  
 Crohn disease as, 797t, 798-800, 799b, 799f  
 ulcerative colitis as, 797t, 800, 800b, 801f, 802f
- Intestine (*Continued*)  
 irritable bowel syndrome of, 796  
 ischemic bowel disease of, 779-780, 779b, 780f  
 malabsorption and diarrhea of, 781-784, 781t  
 in abetalipoproteinemia, 784  
 in autoimmune enteropathy, 784  
 in celiac disease, 782-783, 782f, 783f, 783b  
 in cystic fibrosis, 782  
 in environmental enteropathy, 783-784  
 in lactase (disaccharidase) deficiency, 784  
 obstruction of, 777-778  
 due to adhesions, 777-778  
 due to hernias, 777, 778f  
 due to intussusception, 778  
 due to volvulus, 778  
 polyps of, 804-809, 814b-815b  
 in familial adenomatous polyposis, 809, 810f, 810t  
 hamartomatous, 805-807, 806b, 806t  
 hyperplastic, 804, 804b, 805f  
 inflammatory, 804-805, 805f  
 juvenile, 805-806, 806b, 807f  
 neoplastic, 807-809, 808b, 808f, 809f  
 in Peutz-Jeghers syndrome, 806-807, 807b, 807f  
 sigmoid diverticulitis of, 803-804, 803b, 803f
- Intima, of blood vessels, 484
- Intimal thickening, in response to vascular injury, 486-487
- Intracellular accumulations, 61-65, 61f, 66b  
 of glycogen, 63-64  
 hyaline change as, 63  
 of lipids, 62, 62f  
 of pigments, 64-65, 64f  
 of proteins, 63, 63f
- Intracellular bacteria  
 facultative, 350  
 virulence of, 350
- Intracellular catabolism, 13f
- Intracellular destruction, of microbes and debris, 79-81, 80f
- Intracellular microbes, elimination of, 197-198
- Intracellular receptors, 16
- Intracranial hemorrhage, 1268-1271  
 due to vascular malformations, 1271  
 intraparenchymal, 1259, 1268-1269, 1268b, 1269f  
 subarachnoid (due to ruptured saccular aneurysms), 1269-1271, 1270b, 1270f
- Intracranial pressure, raised, 1255
- Intraductal carcinoma, 1057-1058, 1058f, 1059f
- Intraductal papillary mucinous neoplasms (IPMNs), 891, 891f, 892b
- Intraductal papilloma, of breast, 1050f
- Intrahepatic cholestasis, of pregnancy, 866-867
- Intralobar sequestration, 670
- Intramural arteries, 525
- Intranuclear basophilic inclusions, 359b, 359f
- Intraparenchymal hemorrhage, 1259, 1268-1269, 1268b, 1269f
- Intraparenchymal metastases, 1316b
- Intrarenal reflux, 931
- Intraretinal microangiopathy, 1117b-1119b
- Intratubular germ cell neoplasia (ITGCN), 975-976
- Intrauterine infection, prematurity due to, 456
- Intravascular hemolysis, 631  
 in paroxysmal nocturnal hemoglobinuria, 642
- Intravascular lymphoma, 1314
- Intrinsic apoptotic pathway, 302
- Intrinsic factor in vitamin B<sub>12</sub> metabolism, 646-647, 646f
- Invasion, in cancer, 306-310, 310b  
 of extracellular matrix, 306-308  
 vascular dissemination and homing of tumor cells in, 308-309
- Invasive ductal carcinoma, of breast, 272f
- Invasive (infiltrating) carcinoma, 1060-1066, 1062b-1066b, 1065f
- Invasive thymoma, 627b
- Inversion, 160, 160f
- Involucrum, 1195b
- Iodopsins, 436-437
- Ion channels, 1186-1187
- Ion channel myopathies (channelopathies), 1246
- Ionizing radiation, in cancer, 325
- IRF5 gene, autoimmune diseases and, 216t
- Iris, 1320f
- Iris bombé, 1329
- Iron  
 absorption, 650, 651f  
 distribution in body of, 649, 649t  
 requirements for, 650
- Iron-binding capacity, 652
- Iron deficiency anemia, 649-652, 649t, 650f, 651f, 655b  
 clinical features of, 652  
 etiology of, 651-652  
 morphology of, 652b  
 pathogenesis of, 652
- Iron metabolism, 649-651, 650f, 651f
- Iron overload  
 in  $\beta$ -thalassemia major, 641  
 classification of, 847t
- Iron oxide, 688t
- Irritable bowel syndrome, 796
- Irritation fibroma, of oral cavity, 728, 728f
- Ischemia, inflammation due to, 72
- Ischemia-reperfusion injury, 51
- Ischemic bowel disease, 779-780, 779b, 780f
- Ischemic cardiomyopathy, 550
- Ischemic cell injury, 50-51
- Ischemic heart disease (IHD), 538-550  
 angina pectoris as, 538-540  
 epidemiology of, 538-539  
 in Global Burden of Disease, 405  
 myocardial infarction as, 540-549  
 clinical features of, 547, 547f  
 consequences and complications of, 547-549, 548f  
 expansion of, 549  
 extension of, 555  
 incidence and risk factors for, 540  
 pathogenesis of, 540-549  
 reperfusion of, 545-547, 546f  
 reversible *vs.* irreversible, 541f, 544t, 546f  
 right ventricular, 568  
 subendocardial, 543
