

- Parafollicular cells, 1083  
 Paraganglioma, 741-742, 742b, 742f  
 Paraganglion system, 1133-1134  
 Parakeratosis, 1143t  
 Paraneoplastic neuropathies, 1233  
 Paraneoplastic pemphigus, 1169  
 Paraneoplastic syndromes, 330-332, 331t, 718-719  
   neurologic effects of, 1316  
 Parasitic infections, 390-400  
   African trypanosomiasis, 394, 394b  
   babesiosis, 392, 392b  
   Chagas disease, 394-395, 395b  
   cysticercosis and hydatid disease, 395-396, 396b  
   lymphatic filariasis, 398-399, 399b  
   malaria, 390-392, 391b-392b  
   onchocerciasis, 399-400, 400b  
   schistosomiasis, 397-398, 398b  
   strongyloidiasis, 395, 395b  
   trichinosis, 396-397, 397b  
 Paratesticular tumors, 975  
 Parathyroid adenoma, 1101f, 1102f  
 Parathyroid carcinomas, 1102b-1103b  
 Parathyroid glands, 1100-1105  
   clinical course of, 1104  
   morphology of, 1104b  
 Parathyroid hormone, in hyperparathyroidism, 1191  
 Parathyroid hormone-related protein (PTHrP), 1182  
   in hypercalcemia, 330-331  
 Paratubal cysts, 1021-1022  
 Parenchymal injuries, of central nervous system, 1259-1261  
 Parenchymal organs, fibrosis in, 109, 109f  
 Parent-of-origin effects, 172  
 Paretic neurosyphilis, 1275b  
 Parkinson disease (PD), 1294-1296, 1295f  
 Parkinsonism, 1294  
 Paronychia, 364b  
 Parotid gland, mixed tumor of, 267f  
 Parotitis, mumps, 356b  
 Paroxysmal cold hemoglobinuria, 644  
 Paroxysmal nocturnal dyspnea, in left-sided heart failure, 529  
 Paroxysmal nocturnal hemoglobinuria (PNH), 642-643, 643f  
 Pars plana, 1320f  
 Pars plicata, 1320f  
 Partial thromboplastin time (PTT), 119, 656  
 Particulate matter, as air pollutant, 409  
 Parvovirus B19  
   perinatal infection with, 460, 460f  
   red cell aplasia due to, 655  
 Passenger mutations, 281  
 Passive congestion, of liver, 864-865, 865f  
   morphology of, 864b  
 Passive transport, 9  
 Patau syndrome, 162f, 163  
 PATCHED (PTCH) tumor suppressor genes, 298-299  
 Patent ductus arteriosus (PDA), 534f, 535  
   coarctation of the aorta with, 537, 537f  
 Patent foramen ovale, 534-535  
 Pathogen-associated molecular patterns (PAMPs), 131-132  
   in innate immunity, 187  
 Pathogenesis, 32  
 Pathogenicity islands, 349  
 Pathology, 1  
   etiology or cause in, 32  
   functional derangements and clinical manifestations in, 32  
 Pathology (*Continued*)  
   general, 31-32  
   introduction to, 31-32  
   molecular and morphologic changes in, 32  
   pathogenesis in, 32  
   systemic, 31-32  
 Pattern recognition receptors, in innate immunity, 187  
 "Pauci-immune injury," in microscopic polyangiitis, 510b  
 Pautrier microabscesses, 1160b  
 PCA3, in prostate cancer, 989  
 PDX1 gene, 884  
 Peau d'orange, 1067  
 Peliosis hepatis, 863  
 Pelvic inflammatory disease (PID), 994-995, 995b  
 Pelvic pain syndrome, chronic, 962-963  
 Pemphigus, 1167-1170, 1170f  
   erythematosus, 1168  
   foliaceus, 1168, 1169f  
   vegetans, 1168  
   vulgaris, 206t, 1168, 1169f  
 Penis, 970-972  
   Bowen disease of, 971, 971f  
   bowenoid papulosis of, 971  
   carcinoma of  
     invasive, 971-972  
     in situ, 971, 971f  
   congenital anomalies of, 970  
   inflammation of, 970  
   lesions of, 972b  
   tumors of, 970-972, 970f  
 Penumbra, 1264  
 Peptic ulcer, 91  
   in Zollinger-Ellison syndrome (gastrinomas), 1121  
 Peptic ulcer disease (PUD), 766-768, 766b-767b, 767f  
 Peptide display system, of adaptive immunity, 194-196  
 Peptide YY (PYY), in energy balance, 444, 445f, 446f, 446  
 Perfusion, poor, tissue repair and, 106  
 Periapical cyst, 734  
 Periapical granuloma, 734  
 Pericardial disease, 573-575  
 Pericardial effusion, 573  
 Pericardial spaces, in right-sided heart failure, 530  
 Pericarditis, 549, 573-575, 574b, 574f, 574t  
   in systemic lupus erythematosus, 222b-225b  
 Pericytes, 485  
 Periductal mastitis, 1046  
 Perifascicular atrophy, 1238b-1239b, 1239f  
 Perinatal brain injury, 1258-1259  
 Perinatal infections, 360, 459-461  
 Perineural invasion, in prostate cancer, 986, 987f  
 Perineurium, 1227-1228  
 Periodic acid-Schiff stain, 346f, 902, 1079b  
 Periodontitis, 728  
 Periostitis, syphilitic, 380b-381b  
 Peripheral B-cell neoplasms, 593-604  
   morphology of, 593b  
 Peripheral giant cell granuloma, of oral cavity, 729  
 Peripheral lymphoid organs, 193-194  
 Peripheral nerves, diseases of, 1227-1235, 1228f  
 Peripheral nerve injury, general types of, 1228-1230  
 Peripheral nerve sheath tumors, 1246-1249, 1249b  
   malignant, 1248  
   morphology of, 1248b-1249b  
 Peripheral neuropathies, 1235b  
   accompanying inherited metabolic disorders, 1235  
   anatomic patterns of, 1230  
   specific, 1230-1235  
 Peripheral ossifying fibroma, of oral cavity, 729  
 Peripheral resistance, in blood pressure regulation, 488  
 Peripheral T-cell lymphoma, unspecified, 591t, 604, 605f  
 Peripheral tolerance, 213-214  
 Peritoneal cavity, 817  
   infection of, 817  
   inflammatory disease of, 817, 817b  
   sclerosing retroperitonitis of, 817  
   tumors of, 817  
 Peritoneal mesothelioma, 724  
 Peritoneal spaces, in right-sided heart failure, 530  
 Perivascular amyloidosis, 657  
 Periventricular leukomalacia, 1259  
 Permanent tissues, 101  
 Pernicious anemia, 206t, 645-648, 645t  
   clinical features of, 648  
   incidence of, 647  
   morphology of, 648b  
   pathogenesis of, 647-648  
 Peroxisome proliferator-activated receptors (PPARs), 407, 437  
 Peroxisomes, 6  
 Peroxynitrite (ONOO)  
   cell injury due to, 48t  
   in phagocytosis, 80  
 Persistent diarrhea, 253  
 Persistent lymphedema, 399b, 399f  
 Persistent truncus arteriosus, 535  
 Pertussis, 368-369, 369b, 369f  
 Petechiae, 122f  
 Peyronie disease, 1222  
 Phacolysis, 1327  
 Phagocytes, killing by, resistance to, 346  
 Phagocyte oxidase, 79  
 Phagocytic receptors, in inflammation, 78  
 Phagocytosis, 9-10, 14  
   in antibody-mediated hypersensitivity, 205  
   complement system in, 88f, 89  
   discovery of, 71  
   frustrated, 82  
   in inflammation, 78-82, 80f  
 Phagolysosome, 79  
 Phagosome, 78  
 Pharyngitis, 736  
 Phenotypic sex, 167  
 Phenylketonuria (PKU), 464-465, 464f  
 Pheochromocytoma(s), 1134-1136, 1134b-1135b, 1135f  
   clinical course of, 1135-1136  
 Philadelphia chromosome, 317  
 Phimosis, 970  
 Phlebotrombosis, 125-126, 514-515  
 Phosphatase and tensin homologue (PTEN) gene, 286-287, 298  
   in endometrial carcinoma, 1014  
   in endometrial hyperplasia, 1013  
 Phosphate nephropathy, acute, 937  
 Phosphatidylinositol, 7
