

- Seborrheic dermatitis, 1166, 1166b
 Seborrheic keratoses, 1151, 1151b, 1151f
 "Second-hand smoke", 414-415
 Secondary angle-closure glaucoma, 1329
 Secondary eosinophilia, 695
 Secondary gout, 1215
 Secondary immunodeficiencies, 243
 causes of, 243t
 Secondary open-angle glaucoma, 1328
 Secondary osteoarthritis, 1208
 Secondary pulmonary alveolar proteinosis, 696
 Secretagogues, 202
 Secretory carcinoma, 1065f, 1066
 Sedentary lifestyle, diabetes mellitus and, 1111
 Seed sequence, 5
 Seeding, of body cavities and surfaces, 273
 Selectins, in inflammation, 76, 76t
 Self-antigens, abnormal display of, 215
 Self-imposed dietary restriction, and malnutrition, 433
 Self-proteins, citrullination of, 1210
 Self-renewal
 in cancer, 303-304, 305f
 of hematopoietic stem cells, 581
 of stem cells, 26
 Self-tolerance
 in B cells, 220
 in immunologic tolerance, 212
 Semilunar valves, 524
 Seminoma, 976, 976b, 976f
 anaplastic, 976
 spermatocytic, 976-977, 977b
 Senescence
 evasion of, 303, 304f
 p53-induced, 295
 Senile atrophy, 36
 Senile cardiac amyloidosis, 260
 Senile osteoporosis, 1188, 1188f
 Senile systemic amyloidosis, 260
 Sensorimotor neuropathy, 1233
 Sentinel lymph node, biopsy of, for breast cancer, 273
 Sepsis, 70, 99-100
 perinatal, 460-461
 Septic shock, 99-100
 pathogenesis of, 131-133
 pathogenic pathways in, 132f
 severity and outcome of, 133
 Septicemic plague, 370b
 Sequence, 452-453, 453f, 454f
 Sequestration, pulmonary, 670
 Sequestration crises, in sickle cell disease, 638
 Serine protease inhibitor Kazal type 1 (SPINK1) gene, pancreatitis, 886, 886t
 Seronegative spondyloarthropathies, 1212-1213
 Serositis, in systemic lupus erythematosus, 218t
 Serotonin, in inflammation, 83
 Serous borderline tumors, 1025b, 1026f
 Serous carcinoma, ovarian, 1017-1018, 1017f, 1018b
 Serous cystic neoplasms, of pancreas, 890, 890f, 892b
 Serous tumors, of ovaries, 1024-1029, 1025b, 1025f
 Sertoli cell tumors, testicular, 980
 Sertoli-Leydig cell tumors, of ovaries, 1033, 1033b, 1034f
 Serum amyloid A (SAA) protein, 99
 Serum sickness, 207t
 acute, 207
 Severe acute respiratory syndrome (SARS), 707
 Severe combined immunodeficiency (SCID), 239-240
 Sex chromosomes, cytogenetic disorders involving, 164-167, 167b
 Sex cord-gonadal stroma, tumors of, 979-980
 Sex cord-stromal tumors, of ovaries, 1023t, 1032-1034, 1034b
 Sex steroids, 1122
 Sexually transmitted infections (STIs), 351
 classification of, 351t
 Sézary-Lutzner cells, 1160b
 Sézary syndrome, 591t, 605-606, 1160
 SFTBC gene, 457-458
 SFTPB gene, 457-458
 Shadow plaques, in multiple sclerosis, 1284b-1285b
 Shared epitope, 1210
 Shaw, George Bernard, 71
 Sheehan syndrome, 1081
 Shingles, 358b-359b, 1276-1277
 Shock, 131-134, 134b
 anaphylactic, 131
 cardiogenic, 131
 clinical consequences of, 134
 hemorrhagic, 122
 hypovolemic, 131
 morphology of, 134b
 neurogenic, 131
 septic. *See* Septic shock
 stages of, 133-134
 with systemic inflammation, 131
 types of, 131t
 Shock lung, 134
 Short stature homeobox (*SHOX*) gene, 166-167
 "Shower embolization", 1264-1265
 Shunt, 533
 left-to-right, 533-535, 534f
 due to atrial septal defect, 534-535, 534f
 due to patent ductus arteriosus, 534f, 535
 due to patent foramen ovale, 534-535
 due to ventricular septal defect, 534f, 535f, 535
 right-to-left, 535-537, 536f
 due to persistent truncus arteriosus, 535
 due to tetralogy of Fallot, 535-536, 536f
 due to total anomalous pulmonary venous connection, 535
 due to transposition of the great arteries, 536-537, 536f
 due to tricuspid atresia, 535
 Sialolithiasis, 743
 Sicca syndrome, in Sjögren syndrome, 226
 Sick building syndrome, in indoor air pollution, 410
 Sickle cell anemia, genetic basis for, 140
 Sickle cell crisis, in liver, 863f
 Sickle cell disease, 635-638, 644b
 clinical features of, 637-638
 diagnosis of, 638
 epidemiology of, 635
 morphology of, 636b-637b, 637f
 pathogenesis of, 635-636, 636f
 prognosis for, 638
 Sickle-cell nephropathy, 943
 Sickle cell trait, 140, 635
 Sickle hemoglobin (HbS), 635
 Sickle retinopathy, 1336-1337
 Sievert (Sv), as radiation unit, 428
 Sigmoid septum, 525
 Signal transduction pathways, 16-18, 17f
 modular signaling proteins, hubs, and nodes in, 18
 transcription factors in, 18
 Signaling lymphocytic activation molecule (SLAM), in measles, 355
 Silica, lung diseases due to, 688t
 Silicone, 1214
 Silicosis, 688, 690, 690b, 690f
 chronic inflammation in, 93
 Simple (capillary) lymphangiomas, 516-517
 Simple karyotype, 1219
 Simplified Diagnostic Criteria (2008) of the International Autoimmune Hepatitis Group, 840t
 Single-base primer extension, 176
 Single-gene disorder(s), 490
 Mendelian, 140-157
 with nonclassic inheritance, 168-174
 Single nucleotide polymorphism (SNP) genotyping arrays, 178, 178f
 Sinoatrial (SA) node pacemaker, 525
 Sinonasal papilloma, 737, 737f
 Sinus histiocytosis, 585b
 Sinus venous defects, 534
 Sinusitis, 735-736
 Sinusoidal obstruction syndrome, 864, 864f
 morphology of, 864b
 Sipple syndrome, 1137
 Sirtuins, and cellular aging, 67-68
 Sjögren syndrome, 226-228, 227f, 228b
 autoantibodies in, 219t
 clinical features of, 227-228
 etiology and pathogenesis of, 226-228
 morphology of, 227b
 Skeletal muscle
 atrophy, 1237
 congenital myopathies of, 1241t
 diseases of, 1237-1246
 disorders of, 1246b
 fiber types, 1237t
 inherited diseases of, 1241-1246
 neurogenic/myopathic changes in, 1237-1238, 1238f
 Skeletal muscle tumors, 1222
 Skeletal syphilis, 1196
 Skeletal system, in hyperthyroidism, 1084
 Skin, 1141-1178, 1142f
 infections via, 342, 342t
 as mechanical barrier, 1141-1143
 in systemic lupus erythematosus, 222b-225b
 in systemic sclerosis, 229b
 Skin cancers
 in basal cell carcinoma, 1155
 melanoma as, 1147
 Skin disorders, 1163
 adnexal (appendage) tumors as, 1152-1154
 benign epithelial tumors as, 1151-1152
 acanthosis nigricans as, 1151
 epithelial cyst (wen) as, 1152
 fibroepithelial polyp as, 1152
 seborrheic keratoses as, 1151
 blistering (bullous), 1167-1172
 inflammatory, 1167-1171
 bullous pemphigoid as, 1170
 pemphigus as, 1167-1170
 noninflammatory, 1171-1172
 due to infections
 impetigo as, 1176-1177
 superficial fungal, 1177-1178
