

- Vascular disorders, of testis and epididymis, 974-975, 975f
- Vascular dissemination, in invasion and metastasis, 308-309
- Vascular ectasias, 516
- Vascular endothelial growth factor (VEGF), 19t, 20, 104
- Vascular flow and caliber, in inflammation, 73-74
- Vascular injury, of central nervous system, 1261-1262, 1261t
- Vascular intervention, pathology of, 520-521, 521f
- Vascular leakage, in inflammation, 74, 74f
- Vascular malformations, of brain, 1271
- Vascular (multi-infarct) dementia, 1268
- Vascular pattern, of acute T cell-mediated rejection, 233b-234b
- Vascular permeability, in inflammation, 74, 74f
- Vascular reactions, in acute inflammation, 73, 75
- Vascular replacement, 521, 521f
- Vascular tumors, 515-520, 520b
- benign, 516-518
    - bacillary angiomatosis as, 517-518
    - classification of, 515t
    - glomus tumor (glomangioma), 517
    - hemangioma as, 516
    - lymphangiomas as, 516-517
  - intermediate-grade (borderline) tumors as, 518-519
    - hemangioendothelioma, 519
    - Kaposi sarcoma, 518
  - malignant tumors, 519-520
    - angiosarcoma as, 519
    - hemangiopericytoma as, 520
- Vascular wall cells, response to injury of, 487b
- Vasculature, regional specializations of, 484f
- Vasculitis, 505-513, 506f, 513b
- ANCA-associated small vessel, 511f
  - Behçet disease, 511
  - caused by ANCA, 206t
  - Churg-Strauss syndrome, 511
  - immune complex-associated, 506-507
  - Kawasaki disease as, 510
  - microscopic polyangiitis, 510-511
  - neuropathy associated with, 1231
  - noninfectious, 506-513
  - polyarteritis nodosa, 509-510
  - primary forms of, 506t
- Vasculogenic mimicry, 1331b
- Vaso-occlusive crises, in sickle cell disease, 637-638
- Vasoactive amines
- in immediate hypersensitivity, 203
  - in inflammation, 83
- Vasoconstriction, 501
- due to shock, 133
  - in hemostasis, 116, 117f
  - influences, 490
- Vasodilation
- due to shock, 133
  - in inflammation, 73-74
- Vasogenic edema, 1254
- Vasopressin, 1074-1075
- Vasospasm, coronary artery occlusion due to, 540
- Vector-borne infectious diseases, climate change and, 406
- Vegetative endocarditis, 560f
- Veins
- and lymphatics, 514-515
    - superior and inferior vena cava syndromes of, 515
    - thrombophlebitis and phlebothrombosis, 514-515
    - varicose, 514
  - Velocardiofacial syndrome, 163
  - Venous angiomas, of brain, 1271b
  - Venous thrombosis, 125-126
  - Ventricular aneurysm, due to myocardial infarction, 549
  - Ventricular remodeling, 527, 549
  - Ventricular septal defect (VSD), 534f, 535f, 535, 535b
    - in tetralogy of Fallot, 535-536, 536f
    - in transposition of the great arteries, 536-537, 536f
  - Verruca vulgaris, 1175b, 1176f
  - Verrucous carcinoma
    - of penis, 972
    - of vulva, 991
  - Vertical transmission, 344
    - during birth, 344
    - placental-fetal, 344
    - postnatal, 344
  - Very-long-chain fatty acids (VLCFAs), in adrenoleukodystrophy, 1303
  - Very-low-density lipoproteins (VLDLs), 147
  - Vesicle, 1143t
  - Vesicoureteral reflux, 931, 931f, 961-962
  - Vesicouterine fistulae, congenital, 961-962
  - Vessel wall abnormalities, bleeding disorders caused by, 656-657
  - Vinyl chloride
    - as carcinogen, 278t
    - occupational health risks, 414
  - VIPoma, 1122
  - Viral arthritis, 1214
  - Viral hemorrhagic fever (VHF), 357
  - Viral hepatitis, 830-839, 838b-839b
    - acute asymptomatic infection with
      - recovery in, 836
    - acute symptomatic infection with
      - recovery in, 836
    - clinicopathologic syndromes of, 835-839
    - HIV and chronic, 837-839
    - morphology of, 837b-838b
  - Viral infections, 354-362
    - acute, 354-357
    - chronic
      - latent (herpesvirus), 357-360, 357b-358b
      - productive, 360
    - Epstein-Barr virus, 360-362
    - herpes simplex viruses, 357
    - measles, 355, 355b, 355f
    - mumps, 355-356, 356b
    - poliovirus, 356
    - transforming, 360-362
    - West Nile virus, 356-357
  - Viral injury, mechanisms of, 348-349, 349f
  - Viral meningitis, 1272-1273
  - Viral meningoencephalitis, 1275-1279
  - Virchow, Rudolf, 71, 1141
  - Virchow triad, 122, 122f
  - Virus(es)
    - sexually transmitted infections, 351t
    - tropism, 348
  - Visceral epithelial cells, 900, 901f, 903b
  - Visceral leishmaniasis, 393b-394b
  - Vision, maintenance of normal, vitamin A in, 436-437
  - Visual impairment, due to diabetes mellitus, 1120
  - Vitamin A, 436-438
    - deficiency of, 437-438, 437f
    - forms of, 436-437
    - functions of, 436-437
    - metabolism of, 436f
    - sources of, 436
    - toxicity of, 438
  - Vitamin B<sub>1</sub> deficiency, 419, 1233
    - CNS effects of, 1304
  - Vitamin B<sub>6</sub> (pyridoxine), deficiency of, 1233
  - Vitamin B<sub>12</sub>
    - functions of, 647, 647f
    - metabolism of, 645-647, 646f
  - Vitamin B<sub>12</sub> deficiency, 1233, 1304
  - Vitamin B<sub>12</sub> deficiency anemia, 645-647, 645t, 646f, 647f
  - Vitamin C, 442-443
    - deficiency states of, 442f, 443
    - function of, 443
  - Vitamin D, 438-442
    - on calcium and phosphorus homeostasis,
      - effects of, 439-440
    - deficiency states of, 440-441, 441b, 441f
    - functions of, 438
    - metabolism of, 438, 439f
    - nonskeletal effects of, 441-442
    - toxicity of, 442
  - Vitamin D<sub>3</sub>, 438
  - Vitamin deficiencies, 435-443, 442t
    - primary malnutrition, 432
    - secondary malnutrition, 432
    - of vitamin A, 437-438
    - of vitamin C, 442-443
    - of vitamin D, 439f, 440-441, 443
  - Vitamin E, deficiency of, 1233
  - Vocal cords, 670
  - Volume-overload hypertrophy, 527
  - von Hippel-Lindau disease, 1317
  - von Hippel-Lindau (VHL) gene, 299
  - von Hippel-Lindau (VHL) syndrome, 1134t
    - in renal cell carcinoma, 953
  - von Meyenburg complexes, 861, 861f
  - von Recklinghausen disease of bone, 1102b-1103b, 1191b-1192b
  - von Willebrand disease, 662, 665
  - von Willebrand factor (vWF), 116, 118f, 660, 661f
  - Vulva, 995-999, 999b
    - benign exophytic lesions of, 996-997
    - condyloma acuminatum, 997, 997f
    - extramammary Paget disease, 999, 999b, 1000f
    - glandular neoplastic lesions, 999
    - lichen sclerosus, 996, 996f
    - nonneoplastic epithelial disorders of, 996
    - papillary hidradenoma, 999, 999f
    - squamous cell hyperplasia, 996, 996f
    - squamous neoplastic lesions, 997-999
    - vulvar carcinoma, 997-999
    - vulvar intraepithelial neoplasia, 997-999, 998b, 998f
  - Vulvar carcinoma, 997-999
  - Vulvar intraepithelial neoplasia (VIN), 997-999, 998b, 998f
  - vWF metalloprotease, in thrombotic microangiopathies, 660
