

18:726, 2012. [A detailed review of the role of viral infections and inflammatory responses in asthma exacerbations.]

Holgate ST: Innate and adaptive immune responses in asthma. *Nat Med* 18:673, 2012. [This review focuses on innate pathways that are important in asthma.]

Wenzel SE: Asthma phenotypes: The evolution from clinical to molecular approaches. *Nat Med* 18:716, 2012. [Review of the different asthma phenotypes and how this knowledge is used to guide therapy and further research.]

Bronchiectasis

Bush A, Hogg C: Primary ciliary dyskinesia: Recent advances in epidemiology, diagnosis, management and relationship with the expanding spectrum of ciliopathy. *Expert Rev Respir Med* 6:663, 2012. [Discussion of advances in primary ciliary dyskinesia genetics and other ciliopathies.]

King PT: Pathogenesis of bronchiectasis. *Paediatr Respir Rev*, 12:104, 2011. [This review describes the pathophysiology of noncystic fibrosis bronchiectasis.]

Patterson K, Streck ME: Allergic bronchopulmonary aspergillosis. *Proc Am Thorac Soc* 7:237, 2010. [Clear and succinct review of clinical features, diagnosis, treatment and outcomes of allergic bronchopulmonary aspergillosis.]

Idiopathic pulmonary fibrosis

King TE Jr, et al: Idiopathic pulmonary fibrosis. *Lancet* 378:1949, 2011. [A review of the clinical course, therapeutic options, and underlying mechanisms of idiopathic pulmonary fibrosis.]

Steele MP, Schwartz DA: Molecular mechanisms in progressive idiopathic pulmonary fibrosis. *Annual Rev Med* 64:265, 2013. [Discussion of genetic factors that increase the risk of IPF.]

Nonspecific Interstitial Pneumonia

Travis WD, et al: Idiopathic nonspecific interstitial pneumonia: Report of an American thoracic society project. *Am J Respir Crit Care Med* 177:1338, 2008. [Establishes idiopathic NSIP as a distinct clinical entity and describes its clinical, radiological and pathological features.]

Organizing Pneumonia

Robertson BJ, Hansell DM: Organizing pneumonia: A kaleidoscope of concepts and morphologies. *Eur Radiol* 21:2244, 2011. [Review of the pathology of organizing pneumonia, its clinical associations and radiologic findings.]

Pneumoconiosis

Leung CC, et al: Silicosis. *Lancet* 379:2008, 2012. [Review of pathogenesis, clinical features and complications of silicosis.]

Park EK, et al: Elimination of asbestos use and asbestos-related diseases: An unfinished story. *Cancer Sci* 103:1751, 2012. [Review commenting of increase in asbestos related diseases due to use in industrializing countries.]

Sava F, Carlsten C: Respiratory health effects of ambient air pollution: An update. *Clin Chest Med* 33:759, 2011. [Review discussing deleterious effects of co-exposures to air pollution, particularly in genetically predisposed individuals.]

Radiation Pneumonitis

Krasin MJ, et al: Radiation-related treatment effects across the age spectrum: Differences and similarities or what the old and young can learn from each other. *Semin Radiat Oncol* 20:21, 2010. [This study compares radiation related effects, including pneumonitis, pulmonary fibrosis, osteonecrosis, and fracture, across the age spectrum.]

Sarcoidosis

O'Regan A, Berman JS: Sarcoidosis. *Ann Intern Med* 156:ITC5-1, 2012. [Comprehensive review of pathogenesis, clinical manifestations, diagnosis, and prognosis of sarcoidosis.]

Hypersensitivity Pneumonia

Selman M, et al: Hypersensitivity pneumonitis: Insights in diagnosis and pathobiology. *Am J Respir Crit Care Med* 186:314, 2012. [Review of clinical forms, immunopathology, radiology, pathology and treatment of hypersensitivity pneumonitis.]

Eosinophilic Lung Diseases

Fernandez Perez ER, Olson AL, Frankel SK: Eosinophilic lung diseases. *Med Clin North Am* 95:1163, 2011. [Review of the clinical features, general diagnostic workup, and management of the eosinophilic lung diseases.]

Smoking-related Interstitial Diseases

Tazelaar HD, et al: Desquamative interstitial pneumonia. *Histopathology* 58:509, 2011. [Review of smoking-related DIP and its relationship to other interstitial lung diseases.]

Pulmonary alveolar proteinosis

Borie R, et al: Pulmonary alveolar proteinosis. *Eur Respir Rev* 20:98, 2011. [Review of the classification, pathogenesis and treatment of PAP.]

Surfactant Dysfunction Disorders

Gower WA, Nogee LM: Surfactant dysfunction. *Paediatr Respir Rev* 12:223, 2011. [Review of the clinical features, epidemiology, pathogenesis, molecular genetics, pathology and natural history of these rare disorders.]

Pulmonary Hypertension

Paulin R, et al: From oncoproteins/tumor suppressors to microRNAs, the newest therapeutic targets for pulmonary arterial hypertension. *J Mol Med (Berl)* 89:1089, 2011. [Review of discoveries in molecular pathogenesis of PAH and possible therapeutic implications.]

Toshner M, Tajsic T, Morrell NW: Pulmonary hypertension: Advances in pathogenesis and treatment. *Br Med Bull* 94:21, 2010. [Review of recent understanding of pathogenesis, pathology and treatment of PH.]

Pulmonary hemorrhage Syndromes

Gibelin A, et al: Epidemiology and etiology of Wegener granulomatosis, microscopic polyangiitis, Churg-Strauss syndrome and Goodpasture syndrome: Vasculitides with frequent lung involvement. *Semin Respir Crit Care Med* 32:264, 2011. [Review of the most common inflammatory conditions involving pulmonary vessels.]

Pneumonia

Kimmel SR: The course and management of the 2009 H1N1 pandemic influenza. *Prim Care* 38:693, viii, 2011. [Review of epidemiology, risk factors, treatment and vaccination for H1N1 influenza.]

Mandell LA, et al: Infectious diseases society of America/American thoracic society consensus guidelines on the management of community-acquired pneumonia in adults. *Clin Infect Dis* 44(Suppl 2):S27, 2007. [Provides the definitive standard for diagnosis and treatment of CAP.]

Edwards KM, et al: Burden of human metapneumovirus infection in young children. *N Engl J Med* 368:633, 2013. [Paper documenting the high frequency of metapneumovirus infection and its health impact in children under age 5.]

Lung Transplantation

Christie JD, et al: The registry of the international society for heart and lung transplantation: 29th adult lung and heart-lung transplant report-2012. *J Heart Lung Transplant* 31:1073, 2012. [Annual report of registry data including numbers of transplants, indications, and outcomes.]

Lung Cancer

Cheng L, et al: Molecular pathology of lung cancer: Key to personalized medicine. *Mod Pathol* 25:347, 2012. [Review summarizing molecular mechanisms and markers associated with primary and acquired resistance to EGFR-targeted therapy in lung adenocarcinomas.]

Couraud S, et al: Lung cancer in never smokers—a review. *Eur J Cancer* 48:1299, 2012. [Review focused on risk factors for lung cancer in non-smokers.]

de Groot P, Munden RF: Lung cancer epidemiology, risk factors, and prevention. *Radiol Clin North Am* 50:863, 2012. [Concise review of lung cancer, including genetics, molecular pathogenesis, pathology and mortality.]

Hubaux R, et al: Arsenic, asbestos and radon: Emerging players in lung tumorigenesis. *Environ Health* 11:89, 2012. [Comprehensive review of arsenic, asbestos, and radon associated molecular mechanisms responsible for lung cancer.]
