

Bonventre JV, Yang LJ: Cellular pathophysiology of ischemic acute kidney injury. *Clin Invest* 121:4210–21, 2011. [A comprehensive review of the cellular components and various mechanisms that contribute to ischemic kidney injury.]

Tubulointerstitial Nephritis

Montini G, Tullus K, Hewitt I: Febrile urinary tract infections in children. *N Engl J Med* 365:239–50, 2011. [A review of the clinical and pathologic aspects of pediatric pyelonephritis.]

Perazella MA, Markowitz GS: Drug-induced acute interstitial nephritis. *Nat Rev Nephrol* 6:461–70, 2010. [A review of the various drugs that can induce acute interstitial nephritis along with the relevant clinical and pathologic issues.]

Vascular Diseases

Hill GS: Hypertensive nephrosclerosis. *Curr Opin Nephrol Hypertens* 17:266–70, 2008. [A review of the pathophysiologic underpinning of hypertensive nephrosclerosis.]

Keir L, Coward RJM: Advances in our understanding of the pathogenesis of glomerular thrombotic microangiopathy. *Pediatr Nephrol* 26:523–33, 2011. [An update of the dysregulation of the alternative pathway of complement cascade and other mechanisms that contribute to thrombotic microangiopathy.]

Cystic Diseases of the Kidney

Benoit G, Machuca E, Heidet L, et al: Hereditary kidney diseases: highlighting the importance of classical Mendelian phenotypes. *Ann NY Acad Sci* 1214:83–98, 2010. [A review of the genetic mutations that affect a variety of kidney structures ranging from the podocyte to glomerular basement membranes to mitochondria.]

Hildebrandt F, Benzing T, Katsanis N: Ciliopathies. *N Engl J Med* 364:1533–43, 2011. [An excellent review of the spectrum of single gene mutations involving cilia and their clinical manifestations and underlying disease mechanisms.]

Neoplasms of the Kidney

Algaba F, Akaza H, Lopez-Beltran A, et al: Current pathology keys of renal cell carcinoma. *Eur Urol* 60:634–43, 2011. [A comprehensive review of the pathologic classification of renal cell carcinoma.]

Jonasch E, Futreal A, Davis I, et al: State of the science: an update on renal cell carcinoma. *Mol Cancer Res* 10:859–80, 2012. [An excellent review of the molecular basis of renal cell carcinoma and their subtypes with an emphasis on potential therapeutic implications.]
